PROFILE

I am passionate about coding and am an aspiring Full Stack Developer. I am always seeking ways of increasing my knowledge and learn about coding technologies that occupy one to solve socio-economic challenges and boost our economy. I am excellent at team building, and always seeking ways to empower others through technology. I am a hard-worker and am always eager to learn new things. I can work under pressure and adapt easily in a changing technological environment. I am an organized and punctual person.
